

## Finally! Performance-Based Contract Management Software That Gives You the Competitive Edge on Government Procurements

PERFORM™, the only government-focused web-based contract performance management software, helps your company deliver results that exceed government expectations and maximize your customer relationships, award-fees, and future business opportunities.

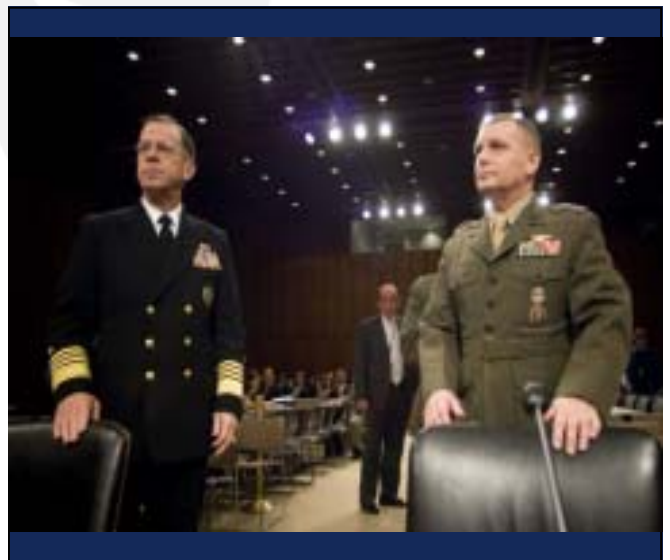

PERFORM™'s powerful features enable your managers to quickly understand how your contract is performing... right down to the specific contract line item. PERFORM™ provides both contractors and the government customer with quick ROI through the establishment and monitoring of meaningful metrics and objective award-fee criteria. In addition, with its small footprint, this well-behaved application can easily be demonstrated and implemented as an innovative differentiator for your RFP responses. This provides contractors with a strong competitive edge and provides government decision makers and stake-holders powerful knowledge during source selection.

Whether your need is for closing the sale, managing contract execution for maximum award fees, or ensuring ease of project oversight through reliable and accurate reporting... PERFORM™ delivers.

In a world fraught with marketing hype, PERFORM™ is genuinely a win-win solution for contractors and government customers working together to achieve interdependent goals.

### Maximize Your Future In Government Contracting

- ◆ **Maximize your performance** – using contract specific metrics that highlight performing areas as well as non-performing areas... with easy access to the deep-dive data needed for early detection and corrective action management
- ◆ **Maximize your customer's experience and your relationships** – by building trust through accuracy, reliability, and ease of oversight
- ◆ **Maximize your award fee capture** – with well managed contract performance from phase-in through the final contract option

PERFORM™

Performance-Based Management Software  
For Maximizing Your Future in Government Contracting
